# Sulphide Marbles (Schiffer Book For Collectors)

## Synopsis

Over 600 beautiful color photographs display molded sulphide figures found within glass marbles. Encased in clear or colored glass, these molded sulphides include animals, birds, humans, mythological creatures, religious figures, and more. A detailed text, bibliography, appendices, index, and tables with values are included.

## Customer Reviews

Consider this a minor review. I bought this book for my girlfriends birthday. I have paged through it to check it out but I have not read it cover to cover. This book seems to have very detailed information and also seems to cover everything a sulphide marble collector would need to know. I am very happy to have this book and I know for sure that my girlfriend will love it.

great reference, full of photos easy read, every thing a serious collector wants at a great price too!! could not be more pleased

particularly like the historical information, including the process of making sulphide marbles.

A great reference book.

This book has great information. I only wish the authors would put out a new up-to-date one~
