Right off the bat what attracted me to this book was the cover and the fact that I could learn how to make delicious Mexican dishes for my family. Just by glancing through the chapters featured in this book, I immediately knew that this is something I would continue reading. I mean, who can resist Mexican soups, desserts and appetizers?The layout of this book is well composed and easy to understand. After reading this book, I was so excited to make real sopapillas and Tex Mex dip. Considering that I do not like spending too much time in the kitchen, the meals that are featured here look delicious and in a matter of 30 minutes, you can have dinner set for the whole family.A great recommendation for anyone who is looking to make delicious meals!

Maybe its just me, but some foods take getting used to, that's my opinion anyway. Not speaking for

myself, I'd try almost anything twice or thrice, but mostly my wife. She has a sensitive taste, and even more sensitive stomach. It took her a while, but she dared to try things again after I already purchased this book for us. With a little cut down on the spicy side of things, we both now enjoy great mexican recipes from time to time! :)

This book is loaded with authentic Mexican recipes from all parts of Mexico. It covers all the basic recipes but also includes hundreds of variations of different recipes for food entres that many are familiar with. Many of the dishes are very easy and quick to prepare. This book is a must for anyone who enjoys Mexican cuisine.

This book contains Mexican recipes for appetizers, deserts, breads, side and main dishes, soups and salads. There are plenty recipes to choose from and I like that for each one you get the time required to prepare and cook the recipe and the number of servings. The book is well formatted: easy to read ingredients and simple directions.

I am a real fan of Mexican cuisine and this book only made me a bigger one. A lot of delicious meals, explained in absolutely clear way to guarantee successful cooking. Soups, salads, main dishes, desserts, appetizers, and anything you can think of is included!

Big Fan of Caitlin Stacy's work. Loved all her recipes book since they are easy to make as well as being very delicious. If you like what you see in this book buy Chinese, and Asian recipe book as well since they are very good too!

I have a lot of Mexican cookbooks and this is one of my favorites. This is truly an amazing cookbook, I tried the Mexican lasagna and the taco soup and both were amazing. I liked that it was illustrated!
