Customer Reviews

The recipes in this cute little book just stink! I have never given a cookbook a one star rating, but this one truly deserves it. I have never had a book where I couldn't find at least one recipe that I liked until now. It is an attractive book and full of clear photographs. But the recipes! Blah! Most of the recipes direct you to first microwave the berries/fruit and then pour off the juice. Seriously? No new or interesting flavor combinations. And to top it off, my microwave did not cook the mugs in the time indicated for its wattage. One minute to cook apples? Really disappointing. I'd pass on this book.
