Customer Reviews

Firstly are you a Steiff or TeddyBear in general collector. If the answer is Steiff this book will have no use to you. The first seven pages are informative but after that it is packed full of colour pictures obtained from peoples personal collectons. It is more like a photo album of bears, although saying this, the pictures are of excellent quality. If you want to check the value of a bear pictured you have to look up the page number at the back of the book and find the relevant item. I have 15 Steiff Bears and not one of them were listed, I have looked through this book 3-4 times and all in all I am dissapointed in it. I will place it in the book cabinet and probably never look at it again.

excellent book

I was pleased with this. I wish the format was more like the first series.
