Yesterday I received this beautiful book on Tea and Coffee Pots that have been produced by the Hall China Company. If you collect Tea and/or Coffee Pots this is a must have book. It has all the Tea and Coffee Pots that the Hall China Company produced from 1903 to today. The just released book by Gary and Paula Barnebey has over 800 color photos in this 240-page book. This is a well written and researched book has an extensive bibliography. The book contains Tables with general color lines produced through the years and availability over time, a colorchart, and much, much

more.

Very extensive collection of pots. There were several I have never seen before in any other publication. Could be organized in a more user friendly manner, but would still recommend the book to any Hall collector.

Beautiful book; a welcomed addition to the collector or lover of Hall China or teapots of any kind. Good information throughout the book for an in-depth look at this exceptional company which truly exemplifies the enduring spirit of American manufacturing of quality products.

Really enjoyed this book. It has all the updates on the Hall Teapots that I needed.

This book specializes in just teapots. The other book I found has all Hall items. I love the layout and pictures;-)

I like this book and find it helpful as I go about on my adventure of finding Hall tea pots. It's a fun vice of mine!

Great book for those who collect Hall tea or coffee pots. Not every piece could be covered as Hall produced many pieces. Enough were pictured to make this book worth the money spent.
