Understanding The Purpose And Power Of Men

Synopsis

The male is in crisis. Traditional roles once gave men stability and continuity from generation to generation. Today, the world is sending out conflicting signals about what it means to be a man. Many men are questioning who they are and what roles they fulfill in life—“as men, fathers, and husbands. This uncertainty is disrupting their personal and professional lives, leaving them frustrated and causing them to live far below their potential. It is creating cracks in the foundation of society. Best-selling author Myles Munroe examines cultural attitudes toward men and discusses the purpose God has given them. Discover the destiny and potential of the man as he was meant to be.

I have always had a fascination with understanding people particularly men, maybe this stems from the fact that I was very close to my father (now deceased) and brother when I was younger. What affected them had a direct knock on effect on me and the rest of the family. As I grew older and entered my first relationship I started to recognise a pattern of self destruction in men and I needed to know why. There many years ago began my quest for knowledge and understanding; I believe that God is using Dr Myles Munroe in an `awesome' way. My first introduction to him was when he visited the ministry in England, that I was a part of and spoke on the Primary Purpose of Man, this seminar explained the disconnection of man/woman to God and the consequences of that disconnection, giving clear illustrations, for example complicated technology that is used without first reading the instruction can appear to malfunction when in fact nothing is wrong with the machinery it

is just not being used correctly and to its full capacity, he likens this to man/woman not knowing God and so continuously trying to find him/herself. Dr Munroe explains that no matter how successful they become there is an emptiness something is missing, something that no matter how hard they try they cannot find as they are looking in the wrong area. This book explores the male in depth from a different angle; it looks at what it means to be a man with and without God, and delves into their innate drive to find fulfilment and purpose and examines what happens when purpose is not found. In this book is the answer to many questions that the world is asking such as what is happening in society today? Why are brothers killing brothers?
