## Customer Reviews

Cast iron cooking is something I have done for many years. It took me a few tries to learn how to maintain the cast iron but I now have a cast iron skillet that is almost 20 years old and ready to go in a moment's notice. When I saw this book that combined cast iron cooking for a Paleo diet I was intrigued. Starting off the book thoroughly covers what you need to do to season your cast iron skillet and the steps required to maintain the skillet for many years. The author suggests skipping this section if you are experienced with cooking with cast iron. There are appropriate notes in case you are not familiar with cast iron, such as: the skillet stays hot much longer than non-cast iron skillets so handle with caution. The benefits of cooking with cast iron help to round out this section. The book then gets right to the recipes. There are sections on cooking with fish, chicken, beef, pork and lamb and vegetarian. There is also a section on sides and accompaniments. With the different types of proteins and sides, there are many combinations that can be put together so you won't get tired with the varieties in the dishes. I like to try one or two recipes before writing a review. This time I was able to complete one chicken dish and a side dish. I tried the Chicken Jambalaya and with another meal I had the Toasted Pecan and Cranberry Salad. Both of the dishes turned out great. The prep was easy and cooking time was reasonable and for both dishes. Using the cast iron skillet to make these meals was different as I have not cooked much beyond the usual things you cook in cast iron. The author, Louise Davidson, included number of servings, preparation time and cooking time.
